

DESIGN DRIVEN CARBON CONSCIOUS

21.1 KITCHEN

G 21.1 NXT

Single floor living and an open floor plan create a wonderful place to call home. In the open kitchen, you will find the recycling center. With this additional feature, recycling couldn't be easier! The split bedroom design allows for a private owners retreat on one side of the home, complete with two walk in closets, separate bathtub and shower, and a double bowl vanity. On the other side, two additional bedrooms and a full bathroom complete the floor plan.
